

Two Jamar employees earn LEED Accreditation

The Jamar Co. LEED Accredited Professional Brent Tonner

Jamar Company's Brent Tonner and Chad Stolp have both earned the Leadership in Energy and Environmental Design (LEED) Accredited Professional credential.

Tonner is professional engineer with a degree in Mechanical Engineering from South Dakota State University and has been in the industry for more than 16 years.

Stolp earned a Bachelor of Science degree in industrial engineering from the University of Minnesota Duluth in 2001. He has worked at Jamar as a project estimator for seven years.

The Jamar Company currently has five LEED Accredited Professionals.

LEED Professional Accreditation distinguishes building professionals with the knowledge and skills to successfully steward the LEED certification process. LEED Accredited Professionals have demonstrated a thorough understanding of green building practices and principles and the LEED Rating System.
