

Doody's latest LEED Accredited Professional

Doody Mechanical's Karl Kotval is the company's latest addition to its growing green staff. Kotval passed the U.S. Green Building Council's LEED for New Construction 2.2 Accreditation Exam in June 2009.

Kotval puts his accreditation to good use as the lead project manager on the United-Children's Hospital Expansion project in St. Paul, Minn.

Kotval is the fourth LEED Accredited Professional at Doody and the 22nd LEED Accredited Professional at APi Group Inc., a parent company to more than 33 independent fire protection, and industrial and specialty construction businesses located throughout North America and the United Kingdom.

Doody Mechanical Inc. is one of the largest and most respected mechanical contractors in the greater Minneapolis and St. Paul metro area. The company completed the first LEED Platinum certified facility in the state of Minnesota — the Great River Energy headquarters in Maple Grove, Minn. ♻️
