a subsidiary of API Group, Inc.

**“A TRUE COLLEGE  
FOOTBALL  
EXPERIENCE.”**

— John Kuduk  
Operations Manager  
APi Distribution

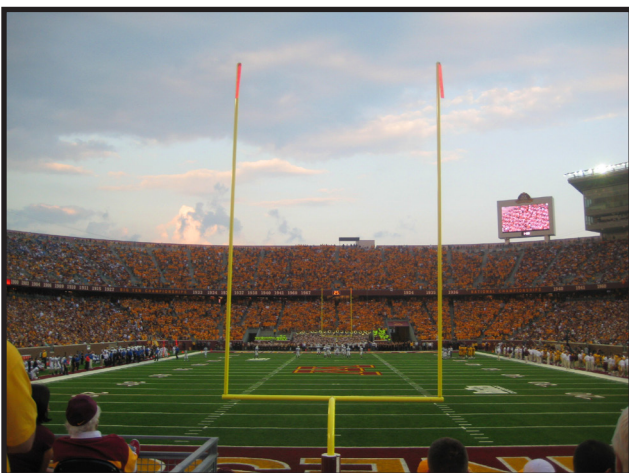

Sept. 14, 2009 — The new University of Minnesota TCF Bank Stadium opened Saturday to kick off the Gopher’s 2009-football season. **LEJEUNE STEEL CO.** provided the structural steel for the fast-paced project.

“The stadium was very impressive,” said Carol Dittel, administration assistant at APi Group Inc. “It was a good feeling to have the Gophers back on campus.” Dittel has been a season ticket holder for 30 years.

As a former Gopher football player, APi Distribution’s Operations Manager John Kuduk was welcomed on the field to bring out the current football team.

“This open-air stadium is a true college football experience,” Kuduk said.

*APi Group congratulates LeJeune and its employees on a job well done. 🍀*
