

NO ONE ELSE CAN COMPARE

TWIN CITY GARAGE DOOR CO.
a subsidiary of **API Group, Inc.**

August 30, 2010 — One of the end-of-summer's main attractions in Minnesota is the Minnesota State Fair, located on the State Fair Grounds in St. Paul.

This year a new feature was added to the State Fair's Blue Moon Dine-In Theatre, located on Carnes Avenue and Chambers Street. The employees will now pull down garage doors at the end of the workday, instead of using sheets of plywood to cover the openings to the theatre.

With minimal headroom above the openings, the openings collectively spanned 34 feet. The customer wanted garage doors to fit in the openings but was told by other garage door companies that it could not be done. **TWIN CITY GARAGE DOOR CO.** proved otherwise by gathering its commercial and warehouse crews to fabricate aluminum garage door jambs. Twin City Garage Door Co. chose corrugated doors to match the exterior siding of the theatre and specially designed door sizes to fit the theatre's openings.

The Blue Moon Dine-In Theatre is now more stylish and clean. The customer was pleased with the convenience of his new doors.

With three metro area locations, Twin City Garage Door installs and services all types of residential and commercial doors.
